

*Join a team shaping the future of a Caribbean paradise*

## *Director of Technical Services*

### About the Role

As a key member of our senior leadership, you will drive innovation, lead multiple engineering teams, and oversee critical projects that shape the future of Canouan Estate. This position requires a strong adaptability to island work life and a remote environment, including resilience and business acumen, with a specific focus on maintaining logistics and operational continuity.

### Performance Metrics:

- Lead and mentor a diverse team of engineering professionals, fostering a culture of innovation and excellence
- Oversee multiple complex engineering projects, ensuring timely delivery, quality, and budget adherence
- Provide technical expertise and guidance to solve complex engineering challenges
- Manage departmental budgets and resources effectively
- Implement and maintain robust quality control processes and safety standards
- Build and maintain strong relationships with key stakeholders, including clients and partners

### Preferred Qualifications and Skills:

- Bachelor's degree in Engineering (e.g., Mechanical, Electrical, Civil) or related field; advanced degree (Master's or Ph.D.) preferred
- 10+ years of progressive experience in engineering roles, including significant time in senior management positions
- Proven track record of successfully leading large-scale, complex engineering projects
- Strong technical knowledge across multiple engineering disciplines
- Excellent leadership and team management skills, with the ability to motivate and develop talent
